

## Contents of issue 1 vol. LI

- 3 A. PIELORZ, *The investigation of the influence of a local elastic nonlinearity on vibrations of plane truss members*
- 25 J. MADEJ, *Influence of damage on variations of material thermal properties*
- 47 M. KRÓLAK, K. KOWAL-MICHALSKA, J. ŚWINIARSKI, *Optimisation regarding local stability and strength of long multilayered plates subjected to compression*
- 63 W. DORNOWSKI, *Numerical simulation of finite deformations of a dynamically loaded elasto-viscoplastic circular membrane*
- 87 U. ANDREAUS, P. CASINI, and F. VESTRONI, *Frequency reduction in elastic beams due to a stable crack: numerical results compared with measured test data*
