

Contents of issue 1-2 vol. L

- 3 T. ŁODYGOWSKI, W. SIEKIERSKI, *Beam-element model of bridge truss girders regarding joint dimensions*
- 19 T. ORZECZOWSKI, *Influence of the state of the mating friction elements of the drum brake on the outer thermal field*
- 35 JI-HUAN HE, *Periodic solutions for a kind of nonlinear oscillations by a new asymptotic approach*
- 43 JI-HUAN HE, *Nonlinear Mathieu equation and its approximation without a small parameter*
- 55 M. DELYAVSKY, M. KRAVCHUK, W. NAGÓRKO, A. PODHORECKI, *Pure bending of the orthotropic elastic rectangle*
- 69 Z. WRZESIŃSKI, *Thermodynamics of a multicomponent gaseous phase as viewed by the balance theory*
- 81 Z. WRZESIŃSKI, *The substantial balance of internal energy (IE) for extensive quantities as viewed by the balance theory*
- 91 Z. WRZESIŃSKI, *Substantial balance equation of internal energy as viewed by the balance theory*
