

Contents of issue 4 vol. XLIX

- 443 W. A. TRZCIŃSKI, S. CUDZIŁO, L. SZYMAŃCZYK, *Determination of the detonation pressure from a water test*
- 459 A. WYSOKOWSKI, *Method of assessing fatigue hazard to steel railway bridges*
- 485 M. N. ICHCHOU AND L. JEZEQUEL, *Direct stiffness energy model for a one-dimensional complex system*
- 511 Z. MALINOWSKI, J. OSTAPKOWICZ, *On the behavior of a bolt-nut joint with plastically deformed thread*
- 529 M. KOWAL AND J. MIELNICZUK, *Yield Criterion of the softwood under conditions of variable humidity*
- 537 K. KOWALCZYK, *Evolution of plastic anisotropy for the polycrystalline materials in large deformation processes*
- 573 J. M. FRAGOMENI, *Characterizing the brittle fracture and the ductile to brittle to ductile transition of heat-treated binary aluminum-lithium alloys*
- 59 J. MACIEJEWSKI, A. JARZĘBOWSKI AND W. TRĄMPCZYŃSKI, *On the efficiency of the soil digging processes*
- 623 K. DOLIŃSKI AND R. STOCKI, *Reliability-based structural optimization accounting for manufacturing and material quality*
- 637 Z. NOWAK AND A. STACHURSKI, *Nonlinear regression problem of material functions identification for porous media plastic flow*

FROM THE EDITORIAL COMMITTEE

The Editorial Committee wishes to express many thanks and appreciation to all the referees, listed below, for their valuable opinions concerning papers published in the Engineering Transactions in 2001:

W. Abramowitz (Warszawa), J. Bauer (Warszawa), R. Ciesielski (Krakow), A. Ganczarski (Krakow), J. T. Gierlinski (Londyn), B. Heimann (Hannover), R. J. Izbicki (Wroclaw), S. Jemiolo (Warszawa), P. Kowalczyk (Warszawa), A. Krawczyk (Warszawa), J. Kubik (Bydgoszcz), T. Lekszycki (Warszawa), T. Lewitiski (Warszawa), A. Muc (Krakow), J. Piekarski (Warszawa), W. Pietraszkiewicz (Gdansk), J. Rojek (Warszawa), L. Solarz (Warszawa), A. Styczek (Warszawa), W. Szczepinski (Warszawa), W. Szczekiiak (Warszawa), J. J. Telega (Warszawa), S. Tokarzewski (Warszawa), R. Uklejewski (Bydgoszcz), R. Wojnar (Warszawa), A. Ziółkowski (Warszawa).

Engineering Transactions, T. XLIX, nr 4, str. 441-664, Warszawa 2001
